

World Play Day

2025

The theme for World Play Day in 2025 is:

**“GREENER” TOY LIBRARIES:
PROMOTE SHARED ECONOMY & REDUCE CARBON FOOTPRINT**

For toy libraries, the defence and promotion of everyone’s right to play appear as one of their biggest pillars. Nevertheless, toy libraries’ impact in communities is much wider.

Reflecting at the way toy libraries function all over the globe, our aim for the World Play Day in 2025 is to state toy libraries’ role as green economy: toy libraries promote responsible consumption and production, avoiding waste generated by toys and board games.

So, looking at you day-to-day how can you show that your toy library is green?

WPD Theme 2025:

“Greener Toy Libraries”
